

## Become a Certified ISONAS Partner

Join our Technical Sales Manager, Jason Clement, for a full day lunch and learn training series and become a certified ISONAS partner in just a single day. This course will provide an in-depth guide to our brand new Pure IP hardware (RC-04) as well as our Pure Access Software. This class is for folks that have a basic understanding of IP networking and access control.

The cost per technician is \$500 and includes an ISONAS demo unit, full day session and lunch.

ISONAS is a Pure IP access control solution that delivers network-based, Pure IP to the door technology; eliminating the need for cumbersome control panels at each and every access point.
